

Foresight Advisory Ltd.

Agile, Impact-Driven, Future-Focused

About us

Foresight Advisory Ltd. is a next-generation development advisory firm led by seasoned experts with **60+ years of combined experience** in climate resilience, nature-based solutions, sustainable finance, and clean energy. With roots in Bangladesh and reach across emerging economies, we bridge global expertise with local systems to deliver solutions that are practical, catalytic, and future-proof.

We co-create with governments, donors, and private sector actors to shape strategies, mobilize finance, and build resilient institutions. Our team has helped drive a USD 11.7B national investment pipeline, mobilized over USD 400M in clean energy, and delivered high-impact programs with USAID, World Bank, ADB, GIZ, IFC, UNEP, IUCN, and others.

Our Expertise

Climate & Sustainability

NAPs, climate-risk assessments, just transition, adaptation finance.

Nature-Based Solutions

Forest restoration, biodiversity conservation, ecosystem-based adaptation.

Green Finance

Climate finance readiness, blended finance, carbon markets, access to multilateral funds.

Energy & Sustainable Industries

Renewable energy integration, industrial decarbonization, circular economy transitions.

Our Services

We support clients from strategy to execution, ensuring mission-aligned and impact-oriented engagement:
