

Foresight Advisory Ltd

Partnering for a Sustainable Future

GLOBAL INSIGHT · LOCAL POWER · FUTURE-PROOF SOLUTIONS

www.foresightadv.com

Our Origin Story

Our company began with a **casual conversation** among colleagues who had spent decades in the development spectrum working on **climate, conservation, green finance, and energy projects**.

We'd seen **great ideas** and noble intentions get **lost in execution**.

After years of leading complex programs, we **asked** ourselves: **What if there was a platform to deliver impact—faster, smarter, and in a more sustainable way?**

So, we founded **Foresight Advisory!**

We are not just advisors.
We are doers, connectors,
and thought partners.

Climate and Sustainability

Designing resilient, low-carbon futures through data-driven policy and action.

Nature-Based Solutions

Restoring ecosystems and empowering communities for nature-positive growth.

Green & Nature Finance

Mobilizing capital and mechanisms that drive climate-smart investment.

Energy and Industries

Accelerating clean energy transitions and circular, low-emission economies.

Our Team

Our Value Proposition

Why Choose Foresight

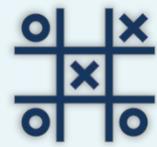

- ✓ **Co-Creation**
We work side-by-side with clients to design solutions tailored to their unique needs and contexts.
- ✓ **Expertise & Access**
Technical mastery in climate, nature, finance, and energy - combined with deep institutional networks.
- ✓ **Idea to Impact**
Supporting clients from concept and strategy execution, funding, and performance measurement.
- ✓ **Integrity & Innovation**
Every engagement is grounded in ethics, creativity, and measurable result
- ✓ **One-Stop Platform**
Integrated advisory services combining global best practices and local delivery capacity.

Strategy and Policy Advisory

Design strategies, framework, and roadmaps that unlock bottlenecks and drive reform

Project Development and Investment Enablement

Convert ideas into feasible, bankable, investable projects that are de-risked and results-driven

Sustainability and Impact Measurement

Embed ESG, impact systems, and accountability for climate and sustainability goals

Knowledge, Learning and Capacity Development

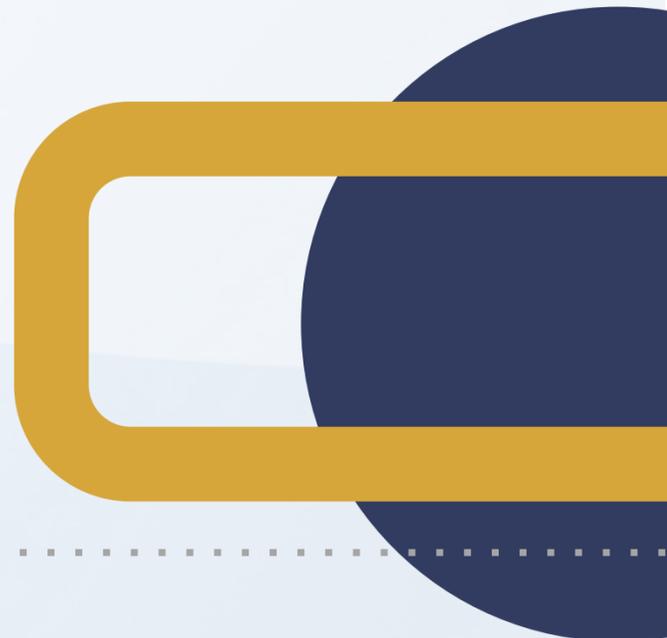

Deliver training, collaboration, and toolkits to reinforce human & institution's capacity

We Enable Sustainable Transformation
